At the very onset , I would like to thank you for your visit to the Artificial Intelligence Laboratory , School of Information , Production and Systems , Waseda University as Honorary Visiting Professor   from 16th to 25th May 2012.

I am sure that the postgraduate students and research scholars of my laboratory have been enlightened by your series of expert lectures on Artificial Intelligence and they will definitely implement your valuable advise in their respective research work.

By virtue of our ongoing collaborative research works on 'Quasi-Linear Regression Model in Business Gain Analysis' , 'Neuro-fuzzy modeling of human mind' and 'Information Retrieval and Artificial Neural Network Based Breast Cancer Diagnosis', I hope both the Institutes viz.
