Dear Prof Chakrabarti,

I confirm my willingness to supervise BTech students (Computer Science and Engineering) in partnership with Asst Prof Pankaj Chittora and Prof P Chakrabarti (Techno India NJR Institute of Technology).

SI.No	Name of Candidate	Roll Number
1	Mohit Menaria	18ETCCS063
2	Chahat Joshi	18ETCCS021
3	Mohit Chaudary	18ETCCS062
4	Aryan Jain	18ETCCS011
5	Dhruv Bhati	18ETCCS029

My understanding is that the 45 days Summer International Research Internship (July 1, 2021, to August 14, 2021) will be carried out at the students' home campus due to the ongoing pandemic. I would be pleased to work with the students online.

At your suggestion, the internship topic will be 'the prediction of heart disease using machine learning classifier.' I believe that you have the necessary access to the required data.

With best wishes,
