Main Masters Dashboard

**Module Introduction**

Main Masters is the first Module to work upon after the ERP is implemented in the School / College. As the name goes, Main Masters is a Module which is used to create entities for various Heads. The ERP begins by creating Campus and Institute followed by Companies and Bank Accounts for accounting purposes. The next step being the creation of Courses, Classes / Semesters, Subjects, Batches etc. and much more.

Thus, using the Main Masters step by step procedure for creation of entities which are required to integrate your Institute with the ERP, can be managed all at one place. To make things easy for the Institute, ERP gives the option to import bulk data.

Utility - Utility Dashboard

### Utility Dashboard

**Module Introduction**

Utility Module serves multiple purposes. It is like a back end module using which all the major settings for other modules can be made as per the requirement of the Institute.

Here, one can create Logins for all the entities along with the scope of rights which are to be assigned. The module also provides the freedom to create customized templates for the reports of all the other listed Modules. Templates for Form/ Certificate type Reports can be created using Editor Templates. Templates for various Receipts can be created using Custom Templates. One can also generate I-Cards using Card Templates. After creating customized templates, one can also view their actual look using the Reports section.

The ERP gives the option to send E-mail and SMS to the entities. For this, the some basic settings are required which can be done using the Utility Module. Utility Module can also be used to track the activities of the users using the Activity Log. It also allows to customize the ERP Dashboard. It is a centralized module using which other modules can be managed. Any changes made in the Utility Module, are immediately reflected in the other respective Modules. Payment Gateway setups is also a part of this module.

Employee Registration - Employee Registration Dashboard

### Employee Registration Dashboard

**Module Introduction**

Employee Registration Module is responsible for recruitment and registration of all the Employees for various institutes. Hierarchy and designations can be set for Employees. Also, departments can be created for Employees and assigned to them respectively. Using the Employee Registration, the institute can post any vacancies and recruitment of Employees can be done accordingly. All the details of the Employees along with necessary documents and certificates can be stored under this Module.

This module allows to store complete information of an Employee along with the report section, using which the data can be exported in the form of reports.

Fees - Fees Dashboard

## Fees Dashboard

**Module Introduction**

Fees Management is simplified by the Fees Module. Fees can be deposited according to the fee plans prepared by the Institute and assigned to respective Students. The fee deposition procedure is made very smooth and user friendly for both the Staff and Parents / Students. Fee Discounts and Late Fees can also be managed using the Fees Module. Also, fees for various heads like Admission, Hostel, Transport etc. can be deposited and reports can also be generated for the same.

The Fees Module is well integrated with the Student Registration module and Accounts Module.

Accounts - Accounts Dashboard - Help

### Accounts Dashboard

**Module Introduction**

Accounting is an integral part of any organization. The Accounts Module is directly integrated with other Modules like Fees, so that real-time data is reflected. Also, ledger accounts can be created as per requirements and also entries can be passed. Bank reconciliation can also be done in the Module.

The Reports section allows to generate the reports of Profit & Loss Statement, Balance Sheet, and particular ledgers also for a specific company.

The screenshot shows the 'Gateway of Tally' interface. At the top, it displays the current period as '1-4-2021 to 31-3-2022' and the current date as 'Saturday, 15 May, 2021'. Below this, a 'List of Selected Companies' table shows 'Techno India NJR 2020-21' with a 'Date of Last Entry' of '15-May-2021'. The main menu on the right includes categories like Masters, Transactions, Utilities, Audit, and Reports. The Reports section is expanded, showing options like Balance Sheet, Profit & Loss A/c, Stock Summary, and Ratio Analysis. The bottom status bar includes the Tally logo, version information, and system details.

## Admission Dashboard

**Module Introduction**

The Admission Module is useful for defining the Admission process of the Institute. Using this Module Admission forms can be made as per the protocol followed by the Institute. Form settings can be defined for multiple courses. Along with managing the Admission Form, one can also keep a record of enquiries received by the Institute.

The Admission forms created using the Admission Module are then, available to the Students with the set instructions, pricing etc. The Students can fill them up and follow on the status online.

Admission Module is an easy to use and useful Module to keep up with the Admissions and all the enquiries.

## Student Registration Dashboard

**Module Introduction**

Complete Student information can be recorded using the Student Registration Module. This includes their admission details, personal details, contact details, enrolled course and subject details, achievement details etc. ERP replaces the mundane task of entering voluminous data with the Import feature using which the data can be imported all at once.

Also, the promotion of Students from one Class to another can be done easily using this module. The Reports feature in the module allows to fetch the required data in the required format. The data entered can be updated anytime and the results can be seen with immediate effects.

The Module is linked with other Modules like Fees, Hostel, Library, Mess, Transport etc. according to the access given for various facilities.

## Examination

Exam - Exam Dashboard

### Module Introduction

Exam Module facilitates conducting exams and generating marksheet for Students. Exams for all the course subjects and classes /semesters can be organized with the Exam Module. Roll No. and Admit Cards can also be auto generated which saves a lot of time and effort. Exam Forms can be generated and forwarded to respective Students. Marks for Attendance if any can also be processed here.

Authorities can be assigned by the institute to verify the marks to ensure correctness. Evaluation type exams entries can also be made by defining formulas for them. All the marks and grades entered will be reflected in the marksheets in the pre-defined set order.
