Personal Utilities

- The date Utility
- The bc Utility
- The expr Utility
- The cal Utility
- The news Utility
- The id Utility
- The uname Utility
- The finger Utility
- The script Utility
- The clear Utility
- Appendix: The at and crontab Utilities

Text Handling Utilities

- The grep Utility
- The tr Utility
- The cut Utility
- The paste Utility
- The sort Utility
- The wc Utility
- The diff Utility

- The lp Utility

File System Security

- File Permissions
- The chmod Utility
- Directory Permissions
- The umask Command

File System Management Utilities

- The find Utility
- The df Utility
- The du Utility
- Compressing Files
- The ln Utility
- The ulimit Utility
- The tar Utility

Communication Utilities

- The write and talk Utilities
- The mesg Utility
- Mail Overview
- The mail Utility
- The mailx Utility

Using the Shell

- What is a Shell?
- Which Shell?
- The Command Line
- Standard Input, Standard Output and Standard Error
- Using Default Standard In and Standard Output
- I/O Redirection
- Appending Output of a File
- Pipes
- The tee Utility
