

Report on Outcome-Based Education (OBE) Training Program

On the 27th of July 2023, Techno NJR Institute of Technology organized a full-day training program on Outcome-Based Education (OBE) in collaboration with IBS ICFAI Business School. The event aimed to provide faculty members with a comprehensive understanding of the fundamentals of OBE and its implementation in academic curricula. A total of 25 faculty members from various departments participated in the session, which was designed to familiarize them with the principles and practices of OBE, focusing on understanding its concept, designing course and program outcomes, and aligning teaching methods and assessments with desired results.

The day began with an inaugural session where representatives from both institutions emphasized the importance of OBE in modern education. The training modules covered the fundamentals of OBE, including the philosophy, components, and advantages. Faculty members learned techniques for crafting measurable course and program outcomes and aligning assessments with learning objectives to ensure effective evaluation. Interactive sessions, including hands-on activities, group discussions, and real-time examples, further enriched the learning experience.

The program also included engaging teaching methodologies, such as case studies and practical exercises, which highlighted the practical application of OBE principles. A feedback session at the end allowed participants to share their insights and seek clarifications from the trainers. Networking opportunities with experts from IBS ICFAI Business School added value to the event.

Overall, the training was a significant step towards enhancing the quality of education at Techno NJR Institute of Technology. The active participation and enthusiasm of the faculty underscored the success of the event. The program exemplifies the institute's commitment to academic excellence and continuous professional development of its faculty. Photographs capturing key moments of the session and a sample certificate awarded to participants are attached for reference.
