Free Eye Check Camp

Report

The Free Eye Check Camp, held at Techno India Njr College on April 13, 2024, in collaboration with ASG EYE HOSPITALS, aimed to provide comprehensive eye care services to the college community. ASG EYE Hospital, situated in Biliya, Rajasthan, and owned by Dr. Arun Singhvi, is part of a leading chain of 165+ super specialty eye hospitals across 85+ cities all over India, offering comprehensive eye care services. It is renowned for its commitment to serving all segments of society. Taking place in the seminar hall between 12 pm and 3 pm, the camp was a concerted effort to promote ocular health awareness and accessibility to eye examinations.

Throughout the event, a total of 100 students and 30 faculty members availed themselves of the opportunity to undergo thorough eye check-ups, facilitating early detection of any potential vision impairments and empowering participants with insights into their current vision status. The collaborative efforts of the college and ASG EYE HOSPITALS underscored a commitment to community welfare and preventive healthcare. By offering these services free of charge, the organizers sought to remove barriers to accessing essential eye care services.

Moreover, beyond the diagnostic aspect, the camp served as an educational platform, providing attendees with valuable information on maintaining eye health and preventing common ocular conditions. Such initiatives play a crucial role in fostering a culture of proactive health management within educational institutions and the broader community. Overall, the Free Eye Check Camp not only addressed immediate healthcare needs but also contributed to promoting a culture of wellness and preventive care among students and faculty alike.
