Company Introduction : IFW Techno Creations Pvt. Ltd.

We introduce ourselves as pioneer in the field of Website Development, Digital Marketing, Graphics Solutions and Educational ERP / Software solutions for Schools, Colleges & Universities from last 15 years and working with more than 1000+ clients across the Country and abroad. We would like to bring to your notice that IFW Campus ERP has been implemented in some leading educational institutes across the country and we would be glad to extend similar benefits to your Educational institute too.

Benefits of a Cloud / Browser / Web Based Application:

Easy to Implement and Manage : Cloud / Browser / Web based systems like IFW Campus ERP 2.0 need no installation. Once your account and subscription is activated you are LIVE and ready to start using the system online from anywhere and on any device like Desktop PC, Laptop, Tablets, Mobiles etc. Today we are all the time connected to these devices, this makes it all the more important.

Reduced costs: Cloud / Browser / Web based applications can dramatically lower costs due to reduced support and maintenance, lower requirements on the end user system, enormous time saving of all staff and students and a very simplified architecture. By further streamlining your business operations as a result of your web based application additional savings can often be found.

Less Manpower needed to manage the System: IFW Campus ERP 2.0 is hosted on our Hi-End secured servers which completely removes the need for your on site staff to maintain the systems or physically install anything in different devices of the staff or students. This helps you to get more done with less manpower thus helping your staff to concentrate more on academic quality and improvement of students.

Simple to Use and Learn: If your employees can browse the web to check the emails and bank accounts, they can quickly and easily learn the Cloud based IFW Campus ERP 2.0 too with the same ease and comfort.

Product Details : IFW Campus ERP 2.0

1. IFW Campus ERP 2.0 is a global product and gets updated from time to time to fulfill educator's need and requirements. All active clients will get lifetime free upgrades & patches for better functionality of the ERP Solution as per the industry standards in the modules purchased.
2. The all new IFW Campus ERP 2.0 is a Cloud Based ERP which runs online on any Browser (Crome, Firefox, Opera, Safari), any Device (Mobiles - Androids & iPhones, Laptops, Tablets, LED Screens etc.) and any Operating System (Microsoft Windows, Apple Mac I0S, Ubantu etc.).
3. This product can manage any kind of School or College or University.
4. This product can manage multiple institutes in a single campus and also multiple institutes in multiple campuses spread in any part of the world with a centralized database.
5. This product helps the client to buy only what they want to use. So, from the long list of modules available the client can buy the optional modules as and when required along with the core modules.
6. Customizations in the product are possible on additional payments as per the nature and scope of work to be undertaken.
7. Our dedicated team of support managers maintains the status of making sure that no user of the ERP faces any problem and in need gets quick solution by email or a phone call on all our working days in our office hours of 10:00 AM to 7:00 PM IST.
8. There are no major Technical Prerequisites at Client side needed for this product. All you need is an internet connection.
9. An ERP Manager should be appointed by the institute so that he knows each and every process of the implementation of the ERP.
10. After receiving your online access of IFW Campus ERP 2.0 and its online training, data collections, data migrations and hand holding, the Institute's staff will be able to start the day to day processes and data entry in the ERP.
11. Daily Data backup is completely the responsibility of IFW Team. IFW Campus ERP 2.0 will make your life easy by making sure that every day backups are maintained on our servers.
