

<p>Metric ID: 1.3.2</p>	<p>Average percentage of courses that include experiential learning through project work/field work/internship during last five years</p> <p>1.3.2.1. Number of courses that include experiential learning through project work/field work/internship year-wise during last five years</p>
<p>Findings of DVV</p>	<p>a. Please provide as per SOP relevant information in the data template and also highlight the reference in SSR in this regard.</p> <p>b. Please provide list if changes were made in syllabus regarding projects, internship etc</p>

Response:

Data template has been uploaded on the website. It is available on

<http://iqac.technonjr.org/dvv/1.3.2.xlsx>

In most of the Labs students go through experiential learning by extending lab learning to real life work.

Number of courses that include experiential learning through project work/field work/internship during the last five years:

2019-20	2018-19	2017-18	2016-17	2015-16
206	211	223	205	187

The supporting document is available on the website. The links are as
