

NAAC WRITE-UP

2.6.1. Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

Describe Course Outcomes (COs) for all courses and mechanism of communication

Techno India NJR Institute of Technology (affiliated to Rajasthan Technical University Kota) adheres to delivery of syllabi and beyond the syllabi in a structured manner. Each course has been designed so that it justifies properly the essence of having Programme Outcome (PO) and Course Outcome (CO). The courses are being allocated to the faculty members as per expertise and option. Time Table coordinators prepare class routines. Each subject has a proper course outline along with program outcome and course outcome. Each faculty maintains a hard/soft copy of the course file that includes the course plan, assignments, papers, and useful reference material for teaching the course. It is one of the rare institutes which focuses on hands-on industry ready courses that are being taught apart from RTU syllabus and time table has been framed accordingly. The students have also undergone many online free courses offered by Coursera, NPTEL and also the faculties are equally upgrading their knowledge by virtue of this exercise.

The internal academic committee arranges for a meeting which discusses methodologies for Programme specific outcomes (PSOs). Every department of the college designs their respective programme specific outcomes (PSOs) and teachers/students are notified of these outcomes. These are also clearly notified in each laboratory. Before commencing the new semester, every teacher devises a detailed teaching plan. Respective subject faculties incorporate these outcomes in their subject/course file and the same is also uploaded in their Moodle account. Students are explained about the course outcome (CO) of each subject at the beginning of the semester enlightening them about the subject and its practical aspects. Faculties keep conveying the course outcomes (COs) during the progression of the semester through an interactive session. After completion of a certain course, students are made aware of how certain course outcomes are fulfilling respective PSO and PO. Certain course outcomes are achieved via value-added courses.
