The management's vision of providing holistic education which imbibes academic excellence and professional ethics in the students during the course of their education at the College. Further, it was also stressed the need to build technology integrated development, global competence and fostering entrepreneurship in young learners and faculty members of the college. Therefore, the college identified and developed strategic plan consists of the following seven important goals keeping creation of knowledge in the mind. They are: Institutional Holistic Development, Infrastructure Development, Strengthening Faculty, Research & Development, Student Career Development Cell, Academic Excellence, and Examination Reforms.

Over the past four years the college successfully implemented its strategic vision and almost all the goals have been met adequately. The management strongly believes that strong Research makes the foundation for knowledge creation and several measures have been taken to strengthen the research and development. Accordingly, faculties were encouraged to take research as priority and created an ambience to foster R&D. The management introduced incentives to the faculty involved in research work and college has paid more than ten lakhs toward the incentives. It may be noted that a number of papers published in prestigious journals like Scopus and SCI. Faculties have been elected as Fellow of prestigious professional societies, have filed patents ( both national and international), have been invited to premier institutes as Visiting Scientist / Visiting Professor / Short-Term postdoc). Many reputed foreign professors have been associated with I-Cube lab of the institute as Honorary Adjunct Professors. Many students have been selected for complete one week research internship at premier institutes abroad. The faculties have many books in their credit.
